-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 3-4, drawn to a method of decomposing nitrogen dioxide (NO₂) to nitrogen monoxide (NO) in an exhaust gas of a lean-burn internal combustion engine Class 423 subclass 235.

Group II, claim(s) 7-8, 23-24, 26, 28-32, 35 and 37-42, drawn to an apparatus for an internal combustion engine, Class 62 subclass 299.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The special technical feature in Group I is a method of decomposing nitrogen dioxide (NO₂) to nitrogen monoxide (NO) in an exhaust gas comprising contacting the gas mixture from the adjusting step with a particulate acidic refractory oxide and passing the effluent gas from the contacting step to atmosphere. The special technical features in Group II is an apparatus for an internal combustion engine comprising of a catalyst for decomposing nitrogen dioxide (NO₂) to nitrogen monoxide (NO) with a suitable reductant. The special technical features of Group I is not shared by Group II since Group II lack the method steps defined in Claim 1 of Group I such as

passing the effluent gas from the contacting step to atmosphere and contacting the gas mixture from the adjusting step. Further Group I lacks the apparatus steps defined in Group II, claims 26, 28-32, 35 and 37-42 and an apparatus comprising a catalyst for decomposing nitrogen dioxide (NO_2) to nitrogen monoxide (NO) with suitable reductant.

Thus, the special technical features in Group I and II are not shared with each other.

3. A telephone call was made to Christine Brown on November 26, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.
4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
5. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
